## HISTORICAL.

(Arranged in part from a sketch by CYRUS S. RICHARDS, LL. D., in general catalogue.)

In 1812 a council of the churches of New England was convened at Windsor, Vt., for the purpose of founding an academy whose object should be to assist in the education of young men for the gospel ministry. A liberal endowment fund from Hon. DANIEL KIMBALL, of Meriden, N. H., determined the name and location of the institution. A building was erected, and the first school opened in 1815.

Some years later, by the bequest of Madam Kimball, a female seminary was endowed, which was united with the male seminary, and a regularly organized female department went into operation in 1840.

A circular, issued on the occasion of the seventy-fifth anniversary of this institution, gives the following facts: "Besides the large number of non-graduates, 1,938 have graduated, and of these, 559 have graduated from Dartmouth college, 257 from other colleges, and 452 from professional schools; 343 have become clergymen, 27 foreign missionaries, 220 physicians, 313 lawyers, 37 editors, 472 teachers, 9 college presidents, 34 professors in colleges or professional schools, 4 members of congress, and 8 judges of higher courts."

The school has ever been noted for the high moral and Christian sentiments that characterize it.

## ADMISSION.

---

Students who wish to enter the Academy are required to furnish testimonials that they sustain good moral character. If from other schools, certificates of good standing are required.

In order to enter any other than the Sub-Junior class, students must be able to pass a satisfactory examination in Reading, Writing, Elements of English Grammar, Geography, Arithmetic, and United States History.

The academical year begins with the fall term, at which time the school is classified.

Except in special cases, students will not be received under fifteen years of age.

Young women are thoroughly fitted for Smith, Wellesley, Vassar, or other colleges. Young men are thoroughly fitted for any of our colleges.

All classes for the term will be formed on the first day (Wednesday). Every student is expected to be present on the morning of that day, as no class will be formed afterwards, and the regular work of the term begins in the afternoon.

### FORMATION OF CLASSES.

For the accommodation of pupils not in the regular courses of study, classes are sometimes formed in other branches than those specified for the term, *provided they are called for by a sufficient number on the first day of the term.*

### DIPLOMAS

Will be awarded to such as complete any one of the courses of study. Options, within certain limits, will be allowed to those who desire to pursue French or German in connection with the English Course.

### PRIZES.

Rev. F. E. Clark, D. D., president of the Board of Trustees, offers two prizes—a first prize of twelve dollars, a second prize of eight dollars—for excellence in extemporaneous speaking, the exercises to be held during “graduation week.”

Rev. C. F. Robinson offers a prize of five dollars for superior work in mathematics during the course of two years, one year in algebra, and one in geometry.

Two prizes of five dollars each are offered, one to that student in Latin, and the other to that student in Greek, who makes the most improvement during the year.

### PRIZES AWARDED IN 1898.

The Clark prizes for excellence in speaking were awarded, first, to Adelbert P. Carpenter, Medford, Mass.; second, Grace K. Bingham, Shoreham, Vt.

The Robinson prize for superior work in mathematics was awarded to Crosby Tappan, Sharon, Mass.

The Alexander prizes for excellence in English composition were awarded to, first, Emery M. Fitch, Princeton, Me.; second, Arthur P. Noyes, Canaan, N. H.; third, Adelbert P. Carpenter, Medford, Mass.

### GENERAL EXERCISES.

Compositions and declamations are required of all each term; a Biblical exercise every Sunday morning; original declamations, and discussions during the Senior year.

The Junior and Middle classes have public rhetoricals each winter term.

Instruction in elocution and physical training is given to all. The physical training includes gymnasium work. Young men should be provided with sweaters and gymnastic shoes. Young ladies with gymnastic suits.

### EXPERIMENTS.

The studies Physics and Chemistry are illustrated by frequent use of the necessary apparatus.

The students themselves perform the major part of the experiments, under the supervision of the teacher. They are thus made familiar with the apparatus and its use, while they are also enabled the better to understand the topics under consideration. The new laboratory has been recently furnished with modern philosophical and chemical apparatus, which makes it adequate for all experiments in those sciences.

### **SOCIETIES, LIBRARIES, ETC.**

The Philadelphian society holds weekly meetings, and furnishes good opportunity for improvement in speaking and writing. Any young man belonging to the Senior and Middle classes is entitled to membership. It has a library of about 1,000 volumes.

The Minervian society is sustained by the ladies. Its exercises have the same general aim as those of the Philadelphian. It has a small library.

The Junior Literary society is a debating club for the young men of the two lower classes.

There is a strong and active Y. P. S. C. E., belonging to a local union. It maintains a prayer-meeting each week, besides doing mission work on Sunday.

The Academy library contains some eighteen hundred volumes. There is now a fund the income of which is to be used for the purchase of books.

A convenient room has been fitted up for School, Philadelphian, and Minervian libraries.

The School library is accessible to all members of the Academy.

A reading-room, well equipped with newspapers and best magazines, is connected with the Institution.

### **BOARD AND ROOMS.**

Bryant's Hall is fitted and furnished for the accommodation of young ladies. Those in the hall are under the care of the preceptress, who rooms in the building and boards with the pupils. The Rowe Hall also is furnished for the accommoda-

tion of young ladies under the care of a teacher. Those who occupy these rooms are expected to furnish their own lamps, napkins, towels, an outside spread, a pair of blankets, sheets, and pillow-cases.

Rooms for gentlemen in private families are usually furnished with everything except the linen and outer spread.

The charge for rooms belonging to the Institution is from \$4 to \$8 per term, according to size and location. If two occupy one room, this expense may be divided between them.

There are opportunities for self-boardings.

Table board in private family, about \$3 a week.

### TUITION, ETC.

Crayon drawing, <i>extra</i>	3.00
Penciling, <i>extra</i>	2.00
Chemicals, per term	1.50
Penmanship	1.50

Board at the Bryant Hall, or at the Dexter Richards Hall, will be :

For the fall term	\$37.50
For the winter term	27.50
For the spring term	30.00

No discount for an absence of one week or less. For an absence of more than one week at one time, a deduction at the rate of \$1.50 per week will be made. Make checks for board bills payable to A. F. Spaulding.

Tuition to be paid in advance to the treasurer, John T. Duncan.

The rent of all the rooms belonging to the Academy will be due at the middle of the term.

Board bills become due four weeks before the close of each term.

## ONE HUNDRED DOLLAR PLAN.

The Trustees, believing such a course to be in harmony with the original design of the founders, and worthy the sympathy and coöperation of all interested in the Kimball Union Academy and the cause of education, now offer to a limited number of students, who present a satisfactory testimonial in regard to mind and character and inability to meet the expense of a higher education, both tuition and a home for the school year of thirty-eight weeks for one hundred dollars (\$100), and one hour daily spent by the pupil in the cheerful performance of whatever portion of the work pertaining to the Home or Institution may be, under the direction of Principal or Matron, individually assigned.

The Home provides room, table board, but not fuel, lights, laundry and books. The beds are furnished with mattresses, pillows, and warm coverings. Students will bring a white bed-spread, pair of flannel blankets, sheets and pillow-cases, towels, napkins, napkin-ring, and a good study-lamp.

Payment in advance is *positively* required. Regular rates will be charged for board during the short vacations for all students who remain either a part or all of the vacation.

No term or terms of one school year will be counted as making a part of a succeeding school year.

Applications should be made as early as possible. For further information, address the Principal.

## PAYMENTS BY THE \$100 STUDENTS.

An extra charge of \$2 for the fall term, \$1.50 for the winter term, and \$1.50 for the spring term, to cover the expense for the use of the reading-room, library, gymnasium, and instruction in elocution and physical training will be added to the term bill of \$100 students, making the amount of each of the three terms as follows :

Fall term . . . . .	\$42.00
Winter term . . . . .	31.50
Spring term . . . . .	31.50

The "extra" for penmanship, chemicals, music, etc., is not covered by the above.

All \$100 students must provide a substitute to do their work during an absence in term time, at their own expense.

An additional charge of ten per cent. will be made on all bills not paid when due.

## SPECIAL ADVANTAGES.

---

I. A permanent fund guarantees the perpetuity of the Institution, and enables it to offer advantages otherwise impossible.

II. An established character, with a past record of eighty-two years, and alumni association of 1,938 members.

III. A delightful country location, in a region noted for its healthful and invigorating climate. The surface is hilly and mountainous, abounding in fine walks and drives; affording a most picturesque and varied scenery, and an unsurpassed field of study for the geologist and botanist.

IV. Unusual facilities for study are insured by the quiet surroundings, and the reputation of the school for thorough instruction is carefully maintained.

V. A strong Christian influence, invaluable in the formation of character, pervades both school and community. The students enjoy rare treatment from temptation, and receive hearty encouragement in their efforts towards a pure, earnest manhood and womanhood.

VI. A limited number of scholarships are awarded to deserving students of limited means. The amount covers the tuition.

# NOTICES.

Kimball Union Academy is situated in Meriden parish, Plainfield, N. H. The post-office address is Meriden, N. H. The nearest station on the Northern railroad is at Lebanon, seven miles distant; the station on the Central Vermont (and roads connecting south) is at Windsor, Vt. A daily stage leaves Meriden for Windsor at 9 a. m.; another for Lebanon at 10 a. m., and for Claremont at 4 p. m. The morning stages connect with all north and south bound midday trains on both roads, and make ample arrangements for conveying students to and from Meriden.

Telephone connections are ample.

Attention is called to the commencement of our terms, on Wednesday.

*It is of the utmost importance* that students be present on the first day of the term; nor is it less important that they be *allowed to remain* here during the entire term.

We wish to call the attention of parents and guardians to the injury done their children by frequent visits home during the term.

We earnestly ask our patrons to remember this, and make such arrangements that, under ordinary circumstances, no absence will be necessary.

We call *especial* attention to the following rule: *All the bills of each term, whether due to the Institution or the citizens of the place, must be settled before its close.*

From time to time during the term persons interested in education will be invited to be present and witness the character of the instruction and scholarship. It is believed that this course will give a truer idea of the school than the customary examination at the close of the term.

The cut in the front of this book will give some idea of the fine edifice devoted largely to the recitation work of the Academy. It is heated by steam, is thoroughly ventilated, has

a handsome chapel, a library, reading-room, teachers' room, besides lecture-room suited to mathematical and literary work, with a laboratory and gymnasium.

Still another new building is Dexter Richards Hall for dormitory purposes. Here, also, the parents of the students and the friends of the school can be entertained easily and very pleasantly. The house has double parlors, large dining-room and office, which together with its nicely-arranged sleeping apartments, its tasteful architectural design, and its slightly location, makes it a most attractive structure indeed. The rapid growth of the school and its increasing popularity will be enhanced, it is believed, by these handsome buildings and by improvements to be made from time to time.

For all particulars address the Principal.

An alumni association is formed, which is to meet at Meriden once in three years. Its officers are as follows:

*President*—Rev. Charles M. Palmer, Stoddard.

*Vice-Presidents*—Prof. Marvin D. Bisbee, Hanover; Miss Mary L. Chellis, Meriden; Mrs. A. B. Cook, Libertyville, Ill.

*Secretary*—Miss Mary E. Wilmarth, Newport.

*Treasurer*—Arthur F. Spaulding, Meriden.

The K. U. A. Alumni Association of Boston was organized and is carried on to promote the interests of the school. Its meetings occur annually.

The following are its officers:

ALFRED S. HALL, '69,	.	.	.	.	.	<i>President.</i>
